### A TRAIN WRECK AGAIN.

This Time the Fatality Occurred In Colo-

rado With About Thirty Deaths. Newcastle, Colo., Sept. 11.-The most disastrous railway wreck that has ever happened in Colorado occurred yesterday a mile and a half east of this town. Denver and Rio Grande passenger train No. 1, west bound, collided with a Colorado Midland stock train going east, wrecking both engines and several cars in both trains. Shortly after the collision fire broke out in the ruins. The mall, baggage and express cars, smoker, day coach and a tourist sleeper were burned. A number of passengers who were not killed outright, but who were pinned in the wreckage and could not be extricated, perished in the flames. There were about 200 passengers. It is estimated that 30 persons were killed and as many more bruised, scalded and burned, of whom over six are likely to die of their injuries.

One report as to the cause of the accident is to the effect that Conductor Burbank of the Colorado Midland stock train made a mistake of ten minutes on figuring on the time when the Rio Grande passenger train passed Newcastle, and that therefore he was chiefly responsible for the disaster.

Conductor Eurbank of the Colorado Midland stock train has been arrested. A careful search around the Midland engine failed to reveal the remains of Engineer Ostrander. It is believed he jumped from his engine in time to save his life and, realizing that the accident was due to his negligence, fied to

### DENIES THE ALLEGATION.

Superintendent Hurd of Johns Hopkins

Hospital Answers Accusations. Balt, more, Sept. 11.—Superintendent Hurd of the Johns Hopkins hospital entered a strong denial to a letter published in the London Chronicle alleging that eight insane patients were dosed with thyroid extract until one of them died. Dr. Hurd said that patients at Bay View were treated, but that the treatment was not so much in the nature of an experiment, as claimed by The Chronicle's informant, as it was the administration of a well known remedy which had recognized standing

in the medical world. He continued: "Dr. Henry J. Berkley, associate in neuropathology at the Johns Hopkins university, gave the treatment. I know the London Chronicle thinks the Johns Hopkins hospital has been doing something very bad, but I do not think it was so bad. The patient that died did not die of the effects of the thyroid extract at all, but of tuberculosis. The extract was given for 11 days and was then stopped. After that the woman lived seven weeks, and it is clear the medicine given did not cause her death.

## CONDENSED DISPATCHES.

A cold wave is on the way from the northwest to Chicago,

Rich gold strikes are reported in Colorado near Woodland Park. A Fitchburg (Mass.) train was wreck-

ed near Somerville, but nobody was seriously hurt. Seven people were injured in San

Francisco by a collision caused by a runaway trolley car. Five white men and 25 Kaffirs were

killed by a dynamite explosion in a mine near Johannesburg South Africa. The Afridis are gathering again on the Afghan frontier, and it is feared they intend to attack Bariah or Jam-

Hazleton, Pa., Sept. 11.—The strike situation reached a terrible crisis on the outskirts of Latimer yesterday afternoon, when a band of deputy sheriffs fired into an infuriated mob of miners. The men fell like so many sheep, and the excitement since has been so intense that no accurate figures of the dead and wounded can be obtained. ports run from 15 to 20 odd killed and 40 or more wounded. Many of these will die. One man who reached the scene last night counted 13 corpses. Four other dead lie in the mountains between Latimer and Harleigh. Those who were not injured carried their dead and wounded friends into the woods, and

estimate is baifled. Some of those known to be dead are Mike Chestoll, Harwood; Frank Chekay, Harwood; John Staniska, Crystal Ridge; George Kulick, Harwood: Steve Horrick, Harwood.

Among the injured are George Krezo, Harwood, bullets through leg, hip and knee; John Kerloviski, shot in neck; Andrew Shabolick, shot in breast; John Kulich, shot in stomach; John Damensko, shot in both legs: George Vercheck, shot in both legs; John Forti, shot in head, will die; John Cleshok, shot in hip; Kazimir Dulis, shot in breast; Jarob Kulshot, shot through body, will die: Steve Erskuki, shot in body: John Koti, shot in arm and left side: Joseph Bobick, shot through back; John Treible, a deputy, shot in arm.

Three bodies were found on the road near Latimer.

How the Trouble Started.

The strikers left Hazleton at 3:30 o'clock in the afternoon, announcing their intention to go to Latimer. As soon as this became known a band of deputies was loaded on a trolley car and went whirling across the mountain to the scene where the bloody conflict foliowed. After reaching Latimer they eft the car and formed into three companies under Thomas Hall, F. A. Hess and Samuel B. Price. They drew up in

line at the edge of the village, with a fence and a line of houses in their rear. Sheriff Martin was in entire command and stood in the front of the line until the strikers approached. They were seen coming across the ridge, and Martin went out to meet them.

The men drew up sullenly and listened in silence until he had once more read the riot act. This finished, a low murmur arose among the foreigners, and there was a slight movement forward. Perceiving this, the sheriff stepped toward them and in a determined tone forbade the advance. Some one struck the sheriff, and the next moment there was a command to the deputies to fire. The guns of the deputies instantly

selched forth a terrible volley. The report seemed to shake the very mountains, and a roar of dismay went up from the people. The strikers were taken entirely by surprise, and as the men toppled and fell over each other those who remained unburt stampeded. The men went down before the storm of bullets like tenpins, and the groans of the dying and of the wounded filled the air. The excitement that followed was simply indescribable. The deputies seemed to be terror stricken at the deadly execution of their guns, and second the strikers fleeing like wild menand others dropping to the earth they went to the aid of the unfortunates

whom they had shot down. The people of Latimer rushed pellmell to the scene, but the shricks of the wounded drowned the crees of the sympathizing and half crazed inhabitants. A reported who soon afterward reached the scene found the road leading to Lat mer filled with groups of imphrened Hungarians. Some suir unded dying ompanions and others, fearful of pursuit, clups to the new omer and begard. his postertion.

Rudolph Lizy, who was leading the marchers and carrying an American flag, refused to stop and was arrested. Three others who took Lizy's place were also arrested. The marchers finally turned back, and the four men under arrest were sent to Phusburg fail.

President Compers Returns,

Washington, Sept. 11.—President Gompers of the American Federation of Labor has returned to Washington from Indiana. Mr. Gompers stated that he had called a meeting of the executive council of the order to be held here Sept. 20, at which the miners' situation will be fully considered should the atrike last uptil then.

### BUSINESS GROWS BETTER. The Weekly Report of R. G. Dun & Co.

New York, Sept. 11.-R. G. Dun & Co.'s weekly review of trade says: There is no halting in the advance.

Business grows better in all ways, for while its speculative end breaks conspicuous gamblers for a decline, a steady increase in production, in working force and in the power of the people to purchase is the feature which overshadows all others. Reports of New York trades unions show an increase since one year ago of 34 per cent in the number of men at work. and a similar increase among men in like positions throughout the country would exceed 340,000, while every week adds many establishments to the actual list. The coal miners' strike has disclosed such facts and brought to light such differences that work will probably be very soon resumed by a large share of the men. The farmers are helped by higher prices for wheat, and while western receipts do not show that they have marketed a tenth of their crop, assurance of handsome profits to come prepares them to buy liberally hereafter. Because of this and the increase of hands at work, dealers throughout the country have started to replenish stocks, which is the great force at present operating in manufactures and trade, though distribution by retail trade has greatly increased. Wheat has risen 5 cents the nast

week, not in a flurry, but in answer to the daily increasing foreign demand. Though reports of the crop, now almost wholly out of danger, indicate a yield never surpassed but once, foreign accounts still strengthen the belief that the deficiency abroad will be about 100,-000,000 bushels more than usual, and meanwhile reports indicate that less corn than was expected will be available for export. Its price has risen about 1 cent. While wheat receipts at Chicago have been breaking records, receipts at all western ports are for the week a little below last year's, but Atlantic exports-9,778.138 bushels, flour included, against 4,270,755 last year, for two weeks, with 5,579,771 bushels corn, against 3.570,704 last year-indicate a foreign demand apparently limited at present only by shiproom.

Failures for the week have been 215 in the United States against 315 last year, and 35 in Canada against 47 last

## A DISPATCH TO WEYLER.

Spanish General Luquo Writes of the Surrender of Victoria de las Tunis. Havana, Sept. 11.—General Luguo hassent the following dispatch from Holguin, Santiago de Cuba, to Captain Gen-

eral Weyler: "On Sept. 5 the garrison of Victoria de las Tunis surrendered to the rebels. who have since returned, in exchange for an equal number, the military commander, three officers and 75 soldiers. The latter have been placed under arrest and will be called upon to prove that they complied with the military-

regulations of the garrison "Simultaneously two columns of 800 men, assisted by warships, engaged the insurrectionists at Tasajoras la Juba, Flores la Escondida and Loma de las Agises, destroying the towns of Tasajeras and Bijara, which were in the hands of the enemy. The troops also captured a fire arms factory at Deleite. During this engagement 47 of the enemy were killed."

## Papers Attack Weyler.

Madrid Sept. 11 -The newspapers of this city, commenting upon the capture of Victoria de les Tunts, condemn Capfrom his command for a similar lisaster in ISTG.

Captain General Weyler, telegraphing his reply to the cablegram of the minister of war asking for an explanation of the capture, says in substance that . an expedition will be immediately dispatched to recover the position. General Azcarraga, the premier, denies that there is any intention of withdrawing Captain General Weyler from his command in Cuba

The Hottest Day New York Has Had During the Year.

## OTHER PLACES SUFFERED ALSO.

School Had to Be Closed In Hoboken, N. J., While New England Also fiad a Touch of the Extreme Heat.

New York, Sept. 11,-Yesterday was the hottest day of the year. The mercury in the street got up to over 100 degrees. In the office of Forecaster Dunn it broke the official record for the

year, when it registered 92 degrees. The hottest part of the day was just efore 3 o'clock. That was when some of the street thermometers registered over 100 degrees. At Fulton street and Broadway the mercury registered 161 degrees. Two blocks farther down the temperature was 102, and around the

corner a thermometer showed 103. At the same time in Frankfort street the mercury registered only 90 degrees. and it was 95 along Park row. This difference was largely due to a breeze that blew from the bay and struck the thermometers where the mercury registered lowest.

The hortest day before this was July 10, when the mercury got up to 89 degrees. This, however, was not the hottest Sept. 10, so far as the records show, although probably the street thermometers broke all records. There were a

number of prostrations from the heat. Relief is promised for tonight. There were killing frosts in the northwest territory, and the cold wave is due here tonight. Fair weather should accompany it, the forecasters say.

#### Hoboken Schools Close.

Floboken, N. J., Sept. 11.-The six public schools were closed at noon yesterday on account of the heat. The schools were opened on Tuesday last. The buildings are much crowded. There is not sufficient accommodation for the Hoboken scholars in the present buildings, and the new schoolhouses will not

be ready for several weeks. Superintendent Duniap said yesterday that the scholars should not stay longer in the crowded classrooms and ordered that the sessions cease at noon. The sessions will probably be resumed on Monday. The temperature in the schoolrooms was 93 degrees.

## Boston Did Net Escape.

Boston, Sept. II.-Yesterday was one of the hortest days of the summer season, the thermometer having gone to 94 degrees in the signal service station. Reports from other New England citles indicate that the temperature was unusually high, averaging 90 to 98 degrees. One prostration from the heat was reported in this city,

Some Timely and Useful Suggetions for Women's Wear,

There are tempting styles for the growing girl but so opposite are the effects and so numerous the modes that to make a choice is something of an effort. The attractive features of the dress shown in the illustration are well brought out in the combination of velvet and serge, while velvet ribbon and knife platings of silk form the decoration. The bretelles taper almost to points at the bottom of the waist where their ends are concealed by rosettes of ribbon velvet. The four-

gored skirt is very graceful and -requires some simple trimming, while the shape of the sleeves and general effect is above criticism. Pretty dresses of this style will be made of cashmere with silk for the contrast, and novelty wool goods showing gay mixtures of color will be chosen with braid, velvet ribbon or silk passementerie or gemp for adornment.

The felt hat is new in style, flaring becomingly off the face and bearing gracefully its decoration of plumage and vel-

The Butterick pattern is dress No. 9342; 8 sizes; ages. 5 to 12 years; any size, 25 cents.

There are pronaunced novelties in coats, but the cape has not lost prestige because it fills too important a function on full dress occasions to be peremptorily discarded. A cape is a simple garment to make, it has graceful lines, and its finish may be simple or elaborate according to the material of which it is made and the occasion for which it is required. For late Autumu and Winter wear silk, velvet and sometimes plush, will be chosen and the decoration may be jet on silk or velvet, and braid, fur oc feather band trimming on cloth. In the illustration will be noticed a cape capable of doing duty on the promenade or for traveling or riding. Cloth is the material and braid the trimming. The mode permits considerable variation, inasmuch as a hood is provided, also a standing, turn-down or storm collar. The circular shaping causes the cape to fall in deep flute-like folds below the shoulders and the adornment is neat and expensive.

OLD TIMES IN HAWAII.

Reverence for Royalty Was Once a Marked Characteristic.

One of the most marked characteristics of the ancient Hawaiian religion was the extreme reverence for royalty indicated, says the Philadelphia Press. It was a crime punishable with death to pass through the king's shadow or sit higher than his head. His person was sacred and protected by a strict sys-tem of "taboo." In the royal palace the "taboo" stick, with which the king announced his excommunications. is exhibited. It is a wand with a carved stone cap. If this stick was lowered on the approach of a courier he was compelled to withdraw immediately and was considered in deep disgrace.

The king's will was absolute; but the majority of the Hawaiian monarchs seem to have been of a kindly disposition and to have made no improper use of their extreme power. It was due to one of them that the taboo system was abolished. This bore with grievous weight upon the women. They were forbidden the use of some of the most common articles of diet, such as bananas and certain kinds of fish, on pain of

Smallest Electrical Battery. The smallest electrical battery ever constructed was the work of an electrician in the employ of the Boston Telephone company. It consisted of an ordinary "glass head" through which two wires, one of copper and the other of iron, were looped and twisted so as to prevent their coming in contact. The wires acted as the electrodes, and all that was necessary to cause a current was to place a drop of acidulated water in the head. Certainly such a minute battery furnished but an infinitesimal current, but it could be easily used in a delicate telephone; in fact, it is said to have actually served in signaling a distance of near-

#### Inured to Cold.

When asked if he was not afraid of a temperature of ten degrees below zero the late Tolman Willey, of Boston, said: Where I was born, sir, my father one Sunday took me into a meeting house which sat on four stone posts with no other underpinning. I sat in the church and listened to a sermon on hell for 60 minutes, with the wind howling undernenth the church and blowing 40 miles a minute, with no fire in the store and the mercury 40 degrees below zero. Do von think I was born in a sugar box and nursed on heliotropes?"

# Tompkins' New Store. NO. 8 EAST MAIN STREET.

Great and extraordinary sale of Dress Goods, Silks and Winter Underwear, beginning Monday, Sept. 13th, and continu ing for one week. On Tuesday, Sept. 14th, the great Orange County Fair begins at Middletown and will continue for four days. You have had a hard season's work, take a day off, bring your wife and children along and have a day of pleasure at the Orange County Fair and combine business with pleasure. You need Dry Goods, Clothing and Shoes. Nowhere can you find such an assortment and such low prices as at Bright. Busy, Wide-awake Middletown, and particularly in Dry Goods. Nowhere can you find such remarkably low prices as at Tompkins' New Dry Goods. Store. We have made a great special effort for Fair week, both because we want to and because we have to. Before the advance in prices, caused by the new tariff, we bought big lots of Dress Goods, Silks and Winter Underwear, and our store is packed to the reiling. We find that we have bought more goods than we can dispose of this season through the regular channels of business, so have decided to give the public a big slice of these goods during Fair week at practically what they cost us, to reduce this big, unwieldly stock to proper proportions. Positively none of these goods will be on sale at these prices until Monday, Sept. 13th.

One Bale of Best Unbleached Muslin, Usual price Sc., at sale 3%c a yard. So that this Muslin will go as fast as possible, we limit the quantity to 10 yards to each customer.

Unbleached Muslin You may ask for at 1 to 2c below regular prices during this great sule.

Confidence is the key note of success. Reliability of the goods we sell and certainty of finding grades as promised has made Tompkins New Store a household word in Middletown Wide Sheeting and Pillow Muslin—

-While Ed. Mall, of Jeffersonville, was on his way to Callicoon Depot with a load or city people the draw bolt broke, and the wagon started backward down a steep hill. Mall jumped out, and seizing the tongue, cramped the wagon against a bank at the side of the road, thus preventing a serious accident. The horses ran away, and jumped on the rear part of a wagon on the road ahead, upsetting it and throwing out the occupants, who luckily escaped injury.

-Many farmers in the vicinity of Jeitersonville complain that the dry rot is playing havoc with their potatoes.

-While Wat Lawrence, Chris. Beringer and John Grouten were driving from Liberty to Jeffersonville, Friday, their buckboard broke down and their horse ran away. Lawrence, who was driving, held on to the reins, and was dragged about a quarter of a mile, when he had to let go. He had a bone in his hand broken and one of his knees injured. Grouten also had a leg hurt, and Beringer escaped unbarmed.

From a Special Correspondent. -Miss Annie Ostrom, of New York, is visiting her mother, Mrs. Susan H. Ostrom, at her home in this village. Miss

Jennie Ostrom will leave next week for Albany, where she will take a three months' course in the business college. -Rev. George Betts attended the meet-

ing of the archdeacoury at Highland Falls, on Friday. -Miss Ethel Hosford, who has been spending a part of the summer with ther aunt, Mrs. E. L. Frost, in this village,

returned to her home in Brooklyn, Wednesday. -Thomas Evans, of New York, is the guest of his cousins, the Misses Grier, at

their home in this village. -The question why colored people seldom or never commit suicide has lately been discussed in one of the New York papers. It seems as though one reason might be that the average African is of an exceedingly happy go-lucky disposition. As a general thing his nervous organization is not broken down through overwork, he does not become morbid, and care slides off his shoulders like water from the proverbial duck's back, and he is apparently as happy in a ragged coat as in a whole one. There is something very likeable about a temperament of this kind. Who has not felt a sort of sneaking sympathy for the grasshopper in the fable—the foolish insect that danced all through the long summer days oblivious of the coming winter -and felt that the aut that shut the door in its face, with sarcastic remarks concerning its pastimes, was a bit of a

-By the way, speaking of prigs. what an improvement there has been, of late years, in the literature for children. Except in the fairy tales, (nothing could be better than the old ones,) there has been a marked advance in this particular. The ants are not so often made the vehicles of tedious moral lessons, pious children no longer reprove their erring parents, and the whole tone is more natural and wholesome. This improvement is particularly noticeable in the school-readers which are now interesting both in text and illustrations and fully as instructive as the old ones. There are undoubtedly those still extant who remember Sanders' readers. The writer came across one of them not long ago, which she had used herself in her childhood. One fascinating feature of it-calculated to rouse absorbing interest in the mind of youth, was a lesson, several pages in length, composed entirely of "axioms," each one ending with the words, "As poor Richard says." In this case one could literally read between the lines, for she blushes to write it. but there were things said there about poor Richard that would have started that prosy gentleman off writing fresh moral reflections if he had been in the land of the living and had seen them. Not an illustration except some original ones by the owner, not a single gleam of brightness was there between the covers of that -Lewis Annis, died at his home in book. There probably never was a child Liberty at 3-o'clock on Thursday morn- | that did not do more or less illustrating ing. September 2, at the age of ninety- on its own account in its school books, and this reminds the writer of an experience that struck her as amusing, although the joke was decidedly against berself. It so happened that a pupil of hers had left a book with her, the fly sketches from nature; we have all seen similar ones-men and women with globular bodies; four sticks for legs and arms and hair like "quills upon the fretful porcupine," and so on. This book she afterward loaned to another pupil for a day or two, until a new one could be obtained, and when the child handed it back, it was with the remark, "Mother says she should think you would be ashamed to mark up your books like that." Her preceptress took the rebuke meekly, and memories of

former offences kept her dumb. — в. н.

According to a celebrated anatomist there are upwards of 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. Indigestion is want of juice, weakness of glands, need of help to restore the health of these organs. The best and most natural help is that given by Shaker Digestive Cordial. Natural, because it supplies the materials needed by the glands to prepare the digestive juices. Because it strengthens and invigorates the glands and the stomach, until they are able to ! do their work alone. Shaker Digestive Cordial cures indigestion certainly and pemanently. It does so by natural wonderful and unvaried success

There is no question about its being the best and surest medicine in the world for such troubles. It quickly relieves and cures inability to hold urine, and people, young or old, who take it are not comwhen paid within sixty days from the date of said bills, this resolution to take pelled to get up a number of times during the night. For putting an end to that scalding pain experienced in passing urine, nothing is so good as Dr. David Kennedy's Favorite Remedy. It corrects the bad effects of whiskey and beer; is pleasant to taste, and does not seem to be medicine at all. Diseases of the kidneys and bladder often require the use of instruments to push back the sandy matter so the urine can be voided. In such cases Favorite Remedy should be taken without further delay or the disease may prove fatal. It is sold for one dollar a bottle at all drug stores. It is well worth many times its price.

SATURDAY, SEPT 11, 1897.

The Democratic convention in this judicial district to nominate a candidate for Justice of the Supreme Court to succeed Willard Bartlett will be held Wednesday. Sept. 29th, in the Kings county court house.

Mr. Platt's anti-Low atterances would carry a great deal more weight if people could forget that on more than one occasion he has found it necessary to accept candidates who were not at all to bis liking. And when Mr. Platt has to take a nauseous dose he does it with good grace, and as if crow were the dish of all others that was specially to his liking.

The Republicans of Delaware county, after an unprecedentedly acrimonious preliminary contest, in which it was charged that money was corruptly used in carrying the primaries in several towns, nominated the following ticket, Friday: For Member of Assembly, De-Loss Axtell, ot Deposit; for Sheriff, J. D. Lawrence, of Kortright; for County Clerk, J. K. Hood, of Delhi.

When a sheriff's posse fired on a band of striking coal miners at Hazleton, Pa., Friday, and killed nmeteen of them and seriously wounded forty-one others, murder seems to have been done by those who were sworn to enforce the law. There is no proof that the sheriff and his seventy armed deputies were in danger from the unarmed strikers, nor were the miners so violent or threatening as to justify the precipitate action of the posse in firing into the crowd. Above all, there can be no justification for firing revolvers, pitchforks and other weapons into the strikers after they had turned to flee. The effect of the shooting is to set on fire the whole foreign element in the coal region and serious trouble is feared. It may safely be said that Sheriff Martin's life is in a great deal more danger to-day than it was, yesterday.

The prosperity that has come to the western farmer because of the failure of crops in other countries has increased the cost of living in all the cities and villager, and in all parts of the country that do not raise grain enough for their own needs. The Dingley tariff has increased the cost of clothing and many of the other necessaries of life. There has been no corresponding advance in wages, nor has labor been more in demand than it was before the new tariff bill was passed. In this section farmers, who have received less for their milk than they did last year, are worse off than ever, and have to face, the prospect of larger feed bills next winter than they had last year, When you come to cipher it down, there is a good deal of one-sidedness about this prosperity by act of Providence which the newspapers are exploiting so orderously.

## OBITUARY.

## Charles William Bullins,

Mr. and Mrs. John Mullins, of 14 Ogden street, were bereit, Friday niternoon, of their little son, Charles William, who died at 4 o'clock, aged eleven months and seven days. The cause of death was cholera infantum. The surviving members of the family besides the heart broken father and mother are Martin, John, Elsie and Annie. Charlie was the pet of the household and will be greatly missed. Mr. and Mrs. Mullins have the sympathy of a large circle of friends.

The funeral notice appears elsewhere.

SHERIFF MARTIN'S DEATH ROLL Nineteen Dead and Forty-One Wounded as a Result of His Order to Fire on Striking Miners—Sullen Quiet in Hazleton That May Be Ominous of Troubie. BY ASSOCIATED FRESH.

HAZLETON, Pa., Sept. 11-Nineteen dead and forty-one wounded is the record of the Winchesters wielded by the deputy sheriffs at Latimer, yesterday.

Eleven unfortunate strikers dropped dead in their tracks under the terrible insilade, four more died during the night, and four more were added to the record, this morning.

The Ninth Regiment of the Third Brigade, under the command of Col. Dougherty, Wilkesbarre, was the first detachment of the State Militia to arrive. It reached here after nine, this morning, and camped on the common in the centre of Hazleton.

The coroner has empannelled a jury and an inquest will probably be held this afternoon. So far from being wildly excited, this place is pervaded by a sullen quiet which appears even more ominous.

The arrival of the soldiers was not marked by any demonstration further than the gathering of large but orderly trowds.

Indignation against the deputies is running high and the charge is publicly made that there was absolutely no necessity for the shooting. The miners declared they were not armedinany way and if the deputies feared trouble a single shot over the strikers' heads would have dispersed them.

The fact is undisputed that many tims were shot through the back while flying from the guns of the deputies. The local police force has been considerably increased and has received orders from the chief to stop the slightest attempt at

## FOUGHT FOR A WOMAN.

#### Two Raifroad Men Bave a Flerce Fight on Wisner Avenue.

There are said to be two houses of illfame on Wisner avenue and the belle of one of them has been especially favored with the attentions of two railroad men. After a time they each learned of the other's existence and each resolved to be chief lover or no lover at all. So they adjourned to the street, Thursday night, and pummelled each other most brutally. One man was finally completely whipped and his friends carried him away, while the victor washed the blood from his battered countenance in the home of his charmer.

"OLD VOLUNTEERS" ENTERTAINED Had an Enjoyable Visit to This City and Midway Park.

The Veteran Volunteer Firemen of New York city, whose visit here Friday livened up matters in town, returned home at 5 o'clock. During the visit at the park the Volunteers had as much fun as any, crowd of youngsters which has been there. They wrestled and rolled on the grass, danced Highland flings when the band played, rode on the roller coaster, merry-go-round and razzle dazzle and, in fact, did everything but keep quiet.

Fireman Maloney, brother of ex-Alderman "Billy" Maloney, who is known as a Limerick Indian, pointed out some of the others among the party and had a joke for each of them. "Gabe" Tuthill had personal care of a man who was so fat that "Gabe" looked thin. He was taken around on the roller coaster and he nearly swamped the razzle dazzle.

A "Dutch" was served the veterans in the restaurent and at 4 o'clock the party came to this city in their private cars. A large crowd had gathered at the depot, and as the train pulled out the "Vets' were given hearty cheers.

Capt. Bradley presented Chief Higham with a silver badge, the prettiest that has been seen this season in this vicinity. A. L. Decker gave one hundred of his souvenirs to the old veterans.

MISS MORRISON RESIGNS.

#### Mrs. Cook Made Her Successor as Superintendent of Thrail Hospital.

Miss Morrison, Superintendent of Thrall Hospital, has resigned, and the resignation went into effect September 4th. Miss Morrison first tendered her resignation about three months ago, when she left for a vacation at her home. It was not accepted, but another letter was recently received asking for its acceptance, and the Board of Managers reluctantly granted the request. Miss Morrison held the position of superintendent of the hospital for eighteen months, and was most conscientions and efficient.

Mrs. Cook, who has been acting as Superintendent in Miss Morrison's absence and who has given most excellent satisfaction, has been given the permanent

### A CAMERA CLUB.

#### An Organization for the "tudy of Photo. graphy Formed Here.

While the camera has many enthusia-tic admirers in this city, many people will be surprised to learn that a club known as "The Camera Club" has been formed here.

This club, for the purpose of studying photography in its various branches. was organized among the students of "Winchester University" suring the last school year. The club was dispanded during the summer months, but on Thursday reorganized, and elected the following officers: President-Ritze Denton.

Vice President-Willard Lyon. Se, retary and Treasurer-Living Bull.

The constitution originally excluded from membership any one not a memoer of the high school. Several persons outside the school having expressed a desire to join, the constitution has been amended so that any person wishing to join may make application for member-hip. The meetings of the club are held every

Thursday evening.

#### A Suffician County Family Who Will Inherit Part of a Rich Antwerp Merchant's Property.

HEIRS TO A GREAT ESTATE.

The Watchman says that several resi dents of Monticello are heirs to an estate of \$45,000,000 left by John Christian Webber, a merchant of Antwerp, who died more than a century ago. He had become extranged from his tanuly and left his property in trust to the government until his heirs of the third generation should become of age. G. Heiarich Webber, a grandson of the rich merchant, settled at Hartwood in 1854. His living children are Andrew Webber, Isaac Webber and Chasles Webber, of Monticello. and George Webber, of New York. Henry Webber, another brother, died here in 1894, leaving a wite and three-children. They have retained Judge Smith to look after their interests and he will probably visit Antwerp before long.

## ATTEMPTED ROBBERY.

#### A Thief Attempts to Chloroform Ur, and Mrs. Floyd Pelton, Sr., of Monticello.

An unsuccessful attempt was made, Thursday night, to chloroform Mr. and Mrs. Floyd Pelton, Sr., of Monticello, by pumping chloroform through a raised window.

It is supposed that the thieves were after the money, about \$1,000, which John L. Kniffin and Fenton Smith, drovers, who were guests of Mr. Pelton, had with them.

Fifteen years ago, Mr. and Mrs. Pelton were chloroformed by a burglar and came near losing their lives. The robber was, however, frightened away before he secured any booty.

## FAMINE IN KLONDIKE

Terrible News Brought by the Steamer Cleveland.

STORY OF DISTRESS AND DISASTER.

Provisions Have Given Out In Dawson, and St. Michaels Is Little Better Off-Forty-two Men Lost From the Whaler Nevach.

Otter Point, B. C., Sept. 11-The steamship Cleveland has arrived from St. Michaels, bringing with her from the Yukon goldfields a story of distress and disaster. The miners she has on board and officers in charge of the vessel tell the story,

The winter has set in at the mining city of the north, and two great stores of the place have closed their doors, for they have nothing to sell. Those who have been seeking gold now must seek food or starve. While there may be a tendency to exaggerate the actual condition of affairs there can be no queslion that famine threatens the adventurous men and women who made their

way to the Klondike. Hundreds of unruly spirits are flocking to Dawson. Threats of violence are being made on every side. Indignation meetings, heavy with uttered threats of vengeance, are held at St. Michaels by those who have little hope of advancing up the river and less of getting back to civilization.

The first signs of winter are apparent on the Yukon river, which is beginning to freeze, and in a few weeks will be closed. Enormous prices are now being paid for food at Dawson. and it is impossible that more than four vessels with provisions can reach Dawson before the river is a mass of ice.

On the Cleveland there are 38 paswho have come from Dawson City. There are few miners who are able to tell of prosperity. Most of them wish to exaggerate their possessions, and if one were to believe the stories they tell he would say the treasure ship in which they came carries \$5,000,000.

Captain Hall, master of the Cleveland, says that he has \$100,000 in his safe. The purser believes that he can account for \$150,000 on board.

The Cleveland has some of the pas-sengers of the P. B. Weare on board. The Weare left Dawson City in time to connect with the Portland had she not met with a mishap and struck on the Sats above Circle City.

Had No Food to Sell.

The stores of the Alaska Commercial company and the North American Trading and Transportation company announced on July 25 that they had no more food to sell.

There is gold everywhere, but the people of Dawson want food more than gold now. At St. Michaels there are not enough structures to accommodate the crowd, and scores of people are living in tents.

Shortly before the Cleveland left St. Michaels two of the expeditions, those of the National City and of the South Coast, held indignation meetings. threatening dire vengeance upon those who had brought them there and were unable to carry them farther.

They have been left stranded at St. Michaels and cannot possibly reach Dawson before next spring.

If fortune favors, four vessels will be able to reach Dawson from St. Michael before the Yukon river freezes. They will carry provisions, but it is by no means certain that they will reach the Klondike. They offer the hope, however, for a renewal of supplies.

The Excelsior left St. Michaels on Aug. . Reports were current that her treasure amounted to \$1,000,000 but there is no one on the Cleveland who can verify this assertion.

The Excelsion was caught on the dan gerous flats of the Yukon and broke two blades of her propeller. When the Cleveland reached Unalaska she found the Excelsior undergoing repairs. It is probable, however, that she left Unaiaska last Monday to resume her journey to the south.

The Cleveland also brings news that when the steamship Humboldt stopped at Unalaska on her journey to St. Michaels the passengers were in open rebellion. They had realized that it would be impossible for them to reach Dawson before next soring, and they knew that misery availed them at St. Michaels. There were open threats against W. D. Wood the organizer and manager of the expedition, and it is feared that he may lose his life at the hands of his passengers

Shorely before the Cleveland left for Seattle the United States revenue cutter Usar put in at St. Mu haels with Caps tain White-side, his wife, the first and four hosticers and four seemen of the steam whaler Nevach. They are all that remain to tell the terrible story of

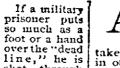

feath in the arche. The Nevach was caucht in an ice sack in the Arctic ocean. Of her crew 12 were lest. That've by were crushed in the ice or frozen to death.

The Bear saw the vessel's signals of distress near Peint Barrow and lost no time in going to her assistance. The captum, his wise, two officers and four salers were gled to leave the dismanthat, crippled shap but nine positively tefused to go. They were lost in the to plate field of see, and it is feared they have perished we'n their comrades.

Operation on Murderer Harris.

Boston, Sept. B .- An operation was performed at the Massachusetts General hospital on John Harris, the murderer of Mrs. Butters of Concord. Both Harris and Carl Butters, the murdered woman's son, who also was shot by Harris, were photographed with the X rays some days ago and the bullets located. The operation performed on Harris was very successful. It was found that the bullet was shattered, and part of it was extracted. Both men are getting along as well as can be expected, the doctors say, and, despite the fact that Carl Butters has two bullets in him, it is thought that he will be able to leave the hospital before Harris. He will not be operated on for several days.

Hull, in fail at Hamilton on a charge of forgery alleged to have been committed in Chicago. Proceedings for his extradition, which have been delayed pending this unsuccessful motion, will be completed.

New Orleans Board of Health Rcgains Confidence.

SHOTGUN OUARANTINE AT NATCHEZ.

Dr. Wyman, to Provide For Possible Emergencies, Revokes All Leaves of Absence From the Marine Hospital Corps.

New Orleans, Sept. 11 .- The announcement of 12 suspicious cases on one square in the city and that three cases had developed since the death of a young lady who had come from Ocean Springs created alarm, but this was ailayed when the facts became known. It developed that a man had died as

the result of excessive dissipation, instead of yellow fever as reported, in the very square in which the suspicious cases had been found. Last night all reports received by Dr. Oliphant were so favorable that renewed confidence was infused in the officials of the board. Surgeon Murray of the Marine Hospital service has stated that Ocean Springs from now on would be the official headquarters of the entire gulf coast Marine Hospital service, and the camp of detention will be at Fontainleau, three miles from the gulf. Those who are taken to the camp will be held nominal prisoners for ten days.

One hundred and forty persons, white and black, in Ocean Springs, by actual count, are in distress, many being in extreme need of medicine and provisions. Not a morsel of food or an ounce of medicine has been given to any one except by private citizens, who already have been heavily taxed. Sisters of charity have appealed to the authorities to be allowed to nurse the sick. The fever has not spread west beyond Biloxi. Biloxi is appealing for medicine, and the situation in the town is apparently growing steadily worse.

Natchez Miss now includes New Orleans in the list of infected points, against which a rigid quarantine is being enforced, and a shotgun guard is in evidence all around the city. The steamer Natchez, from here, passed there with several Natchez people imong her passengers, but none of them was permitted to land.

#### Cases Reported to Washington.

Washington, Sept. 11.-Surgeon General Wyman received several telegrams from Mississippi points bearing on the yellow fever situation. Surgeon Carter telegraphed from Gulfport, Miss., concerning a case at Perkinston as follows: 'One case yellow fever, Dr. Sheely, at Ferkinston. It was contracted at Ocean Springs. The case is isolated and under all necessary guard. No other case in

Dr. Guiterasalso sent a dispatch confirming a newspaper report of yellow fever at Scranton, but stating that there was but one case there, the origin of which is not clear. There is much dengue at Scranton. Later Dr. Guiteras supplemented this dispatch with another, in which he reported that the case supposed to be in Scranton was within the city limits of Pascagoula. The towns are very near to each other.

In view of the possibility of the bureau needing all the surgeons now in the service Dr. Wyman has revoked all leaves of absence. The full force will thus be available if required. Surgeon H. W. Austin has been ordered to re-port here from Chelsea, Mass., and Surgeon Sawtelle, who has been at Augusta, Me. has arrived. This does not mean that these and other officials will be sent to the fever districts, but they will be on hand to receive according to requirements.

## Vicksburg Inhabitants Alarmed.

Vicksburg, Miss., Sept. 11.-Pending further developments of the yellow fever situation in New Orleans, Vicksburg has absolutely quarantined against that city and will quarantine against Memphis. Shreveport, Monroe, Jackson, Meridian and Natchez unless they do like-

Davis Murder Trial Begun.

Bristol, Vt., Sept. 11.-The heating in he case of D. Smith Davis, charged with the murder of Dora Cushman at Lincoln, Aug. 14, has been begun before the local court here. State Attorney Fish was the prosecuting lawyer, and F W. McGettric of St. Albans was counsel for the defense. Fighteen witnesses who had been called to give evidence in the case were sworn in at the opening of the hearing, and Arthur Cushman, brother of Dora, was the first one called upon to testify. He gave in detail the cir umstances attending the disappearance of the girl, the subsequent search and the finding of the body in the pasture not far from the girl's home and described its condition. He also said that he knew of the relations between Davis and his sister. During the proceedings lawyers representing Joslyn the physician, and Brittell, the farmhand, who are under arrest as accessomes, were present and took copious The two latter prisoners will be given a hearing probably next week.

Purchase of Big Racing Association. New York, Sept. 11.-It was said on the best of authority in this city that the syndicate formed in Saratoga last August has secured enough subscriptions to assure the purchase of the Saratoga Racing association and that within the next few days the race course and horse haven will be its property. The syndicate is composed exclusively of residents of the village, and no others will have any financial interest in the scheme.

## Killed by Elevator Collapse.

New York, Sept. 11 .- Two men, one an engineer the other an elevator attendant, were killed by the fall of an elevator it the American Tract buildmg, corner of Spruce and Nassau streets. The elevator fell 200 feet. Street Railroad Workmen Strike,

New York, Sept. 11 .- Between 500 and 800 men working on the Madison and Fourth avenue underground trolley line, went on strike because their wages

were not paid. A settlement will likely

be made very speedily.

THE ARCHDEACONRY OF ORANGE

Annual Meeting at Highland Falls, Friday-Bishop Potter Present-Election of Ufficers.

The annual meeting of the Archideacoury of Orange, embracing the counties of Orange, Ulster and Sullivan, was held at Highland Falls, Friday, There were present about thirty clergymen and fifteen lay delegates. Rector Evans and and James E. Horton, treasurer, attended from Middletown.

Bishop Potter was present and preached the sermon at the services preceding the business meeting. He alluded to the Bert that Archdeacon Thomas, the rector of the church at Highland Falls, was that day celebrating the twenty-fifth anniversary of his ordination, as well as the fittleth anniversary of the incorporation of the parish.

At the business meeting the Bishop presided and in an interesting speech gave an account or his visit to England ference. He said that the universal con- Labor Day. The Independent says: sideration accorded to the American . dergy at the conference, as ladeed to all the film of the jubiler, was most remarkable and gratinging.

The usual business was transacted in be adjustment of missionary's daries for the year and the same officers were elected by unammous votes.

Thomas, D. D., Rev. Octavius Applicate, D. D. Rey, David Lyans, Rev. P. C. Creve long, secretary James E. Horton, treasnow Dr. Mitchell, Mr. Valentine,

Trensurer Horton's report made a c arost tayorable impression and he was seconded a vote of thanks for the able and efficient manner in which he had discharged his duties.

The delegates were most hospitably entertained at the lovely home of Major. the one of the wardens of the Highland Falls Church,

"MADAME SANS GENE."

A Very Successful Play at the Casino, Thursday Evening

You can spend a very profitable evening by attending the performance of 'Madame Sans Gene" at the Casino, next Thursday evening.

Aside from the great historical interest attached to this beautiful comedy or the Napoleonic reign, it is one of the most magnificiently staged and presented plays of any era. All the seenery and accessories are exact representations of localities and places liabited by Napoleon the First and his Court, and are wellworth seeing, if but for the instruction to be derived from the visit to the play-
